#### SLEUTHS PLAY TRICK ON "BAD EYE JIM"

Old-Timer Relates an Experience Detectives Freese and Ziegler Had With a Levee Character.

When Detectives Harry Frese and Louis Elegier joined "the force," many years ago. there was one man who considered it a Joke on the department, though he was a good friend of both men. How he was taught to regard them as wenderful sleuths told by an old-timer.

It was in the middle eighties, and Prese and Ziegler were assigned to duty on the river front. James Steiner, known other-wise as "Bad-Eye Jim," conducted a saloon on the Levee, near Pine street.

They called him "Bad-Eye Jim" because

he was blind on the left side. His other eye, however, was as keen of sight as his brain was genuine, his friends say, and he boasted that he was a better thief-catcher

brain was genuine, his friends say, and he boasted that he was a better thief-catcher than any "copper."

He told the detectives they couldn't catch cold in an ice box, and advised them to get a job in a brickyard. He wouldn't believe them capable of capturing a petty-larceny thief, and the official reports that they sneaked away from headquarters to show him were considered as hoaxes. They became amoyed, though the matter was considered by them as trivial.

One day Jim was standing in the sun in front of his saloon watching dock hands on the Levee rolling potato barrels, when Ziegler and Frese came by. He was induced to walk down the street, which, in those days, was more alive with traffic than now. Ziegler walked on his "off" side, while Frese engaged him in an interesting audience about some possible catastrophe in politics. The subject was well selected.

The wily detectives steered the "prospect" into a sidewalk jam and "fleeced" him of his \$150 imported watch. The conversation was interrupted for a moment, but continued again, and was closed at the next corner.

On the following day the officers were

orner.
On the following day the officers were sent for. They were apparently much surprised when Steiner told them his watch had been stolen. He was considerably abashed, having to admit it.
"Yea," he said, "not more than two hours after you fellows left I missed my watch. I think it was my porter, but I won't say so. If you guys are any good you can find it. I'll give you a chance to show what kind of metal you are. Find the chronometer and I'll sive you 30 each. Of course, I can find it, but I will wait until you have falled. You've been telling me about doing each fine work in this line, now show your hand."

Before Jim died he said he thought Frese

ide-Open Letter to that Great Army of leak hien Who Have Been Hoodwinked and Defrauded by the Infamous Rascals Who Disgrace the Medicine Business.

My Dran Brothers:—More than 280,000 permanent cures during the past four years prove that my "Wonder-Workers" are a God-send to weak men everywhere. There is not a case of Mon's Weakness or Nervous Troubles of any kind anywhere on earth (so matter whether caused by overwork, abuse or worry; and no flaster whether the man be old or young! that "Wonder-Workers" will fail to cure quicker and at less expense than any other remedy made anywhere in the world, if simply used (at home, at your work) one tablet at a dose three times a day. They cured me in less than one month's time, at the age of forty-four years, when I, like you, lacked that vitality without which a person is a man only in name, and after I had been nearly ruined by the frauds and fakirs who disgrace the medicine business. Bear in mind that I am the only man in the world in the business who has solemnly sworn that the medicine he sells cured himself, and that the made of all who buy it will be held sacred forever. Curer Varicocele.

I am the same Geo. S. Beck who is hared by swary Free Sample schemer, Free Prescription fakir and C.O.D. fraud in America, because of the manner in which I have exposed their infamous schemes. Their only object in making "Free" offers is to get the names of men who are vitally weak, so that they may harass them with their impudent letters and lying, filthy circulars; and I now again challenge all of these poison distributers to thoroughly sift and test my charges of villiany and fraud in any court they may select. If you have had any dealings with them you know that my charges are true. I beg to assure you on my honor as a man that no matter whether you are married or single, old, young or middle-aged; or no matter whether your weakness or nervousness is caused by over-work, too frequent indulgences in legitimate pleasures, the practice of secret vice or the ercessive use of strong drink or tobacco, the use of my "Wonder-Workers" will search severy nerve center of your body, renew every tissue, develop every organ, strengthen every muscle, invigorate every function, and bring to you a perfect and permanent restoration of neve strength and manly vigor. The reason why "Wonder-Workers" do this is because they are a Purs Nerve Food and Tonic, and because they do not contain any phosphorus, or Spanish fly, or any other of the poisons that make the vile non-trums sent out by the frauds and quacks so dangerous to human life. It is perfectly cafe to use them at any time or under any circumstances, and their use will not fall to restore natural strangth and wigor without stimulation in old or young.

Because of the wonderful merit of my "Wonder-Workers" medicine, I have built up the largest millerder medicine builtings in Springfield, in order to properly conduct my enormous 'uniness. Nothing Definite Done in the Financial Plans for the Various Wabash Ex-

New York, March 21.—Intervention by the courts in the Wabash strike case, according to Joseph Immsey, Jr., president of the radroad, alone prevenced a catamity which would have shaken the foundation of the present financial structure, and would have starved New York and Chicago.

To confer with Mr. Gould, Mr. Ramsey made a flying trip to this city Priday, returning this afternoon to St. Louis.

Before leaving this city he consented to discuss the labor situation on his lines.

"Had the plans that had been arranged by labor leaders been carried into execution," said Mr. Ramsey, "there would have been a railroad strike in the Middic West which would have caused the coal strike of last summer to be forgotten. New York and Chicago would have been practically isolated, with their food supplies cut off.

"According to the plan of our opponents' campaign, the moment the Wabash strike was ordered, notices were to have been followed by a general-strike order. This was all arranged, and was in accord with a strict interpretation of the Western Association agreement.

"This strike on the Wabash was merely an entering wedge. Even if a general railroad strike had been avoided, success of the labor leaders in defeating the Wabash would have been used as a club against every Chicago-Buffalo line.

"The Wabash was singled out as the first victim because it was on both sides of the Mississippi. Higher wages are paid west of the river."

Mr. Ramsey said that financial plans for the various Wabash extensions are being

A year ago a claim agent in Washington wrote to him, telling him there was money coming to him for his services, and offering to co.lect the claim for a commission. Mr. Albers did not know that there was anything due him, and did not care to press the claim, but the agent was persistent, and, finally, to get rid of the matter, Mr. Albers was surprised to receive the checks from Washington. He says he will keep the check and frame it.

## **ROCK ISLAND BUYS MEXICAN CENTRAL?**

Stated That Deal Has Been Consummated and Announcement Soon Will Be Made.

YOAKUM REFUSES INTERVIEW

By Combination of Interests Frisco Can Run Through Trains From Chicago to the Pacific Ocean.

Reports that the Rock Island has just ompleted negatistions for the purchase of the Mexican Central Railroad are causing much discussion in railroad circles-

much discussion in railroad circles.

It is stated that announcement will be made of the deal with a notification of the terms of the Frisco-Rock Island agreement.

The Rock Island connects with the Mexican Central at El Paso, and by absorbing the Mexican Central it has a Gulf outlet at Tampico and a Pacific outlet which it is stated brings the Orient several hundred miles nearer this country and in effect gives the United States another great transcontinental line. tinental line.

B. F. Yoakum, president of the Frisco, returned last night from New York, where it is stated he has just completed negotiations for the sale of the Frisco.

Mr. Yoakum declined to make a state-Mr. Yoakum declined to make a state-ment upon the subject. It has been commonly accepted that the Frisco has considerable Rock Island hold-ings, but this the officials of that system

ings, but this the officials of that system persistently deny.

The terms by which the purchase of the Mexican Central has been consummated could not be learned, but it is believed that the recent visit of the capitalists interested in it was for the purpose of gaining some idea of its value in order that a proposition could be made the Rock Island.

It is stated that a reorganization of the road will take place as soon as the change in ownership is made. Extensive borings for oll will be made in Tampleo, and developments of the country will be pushed with vigor.

ments of the country will be pushed with vigor.

The line from Tampleo to the City of Mexico, which is now under construction, will be pushed forward to completion, as will a number of other extensions.

The Mexican Central is capitalized for \$25,800 a mile. H. Clay Pierce of St. Louis is the president.

If a combination of the Frisco, Rock Island and Mexican Central is effected the Frisco can run its trains from Chicago to the City of Mexico and even to the Pacific Ocean.

# PRESIDENT CASTRO OFFERS RESIGNATION

Turns Over His Executive Authority to President of Venezuelan Congress.

EXPECTS ANOTHER ELECTION.

His Brother Is to Be Made Vice President Until Matters Have Cleared Up and Political Tangles Straightened.

Caracas, March 21.-President Castro today tendered his resignation as President of Venezuela, when he sent his message to

He handed over the presidential function

to the President of Congress. There is considerable doubt whether Con gress will accept the resignation. In the ordinary course of events, President Castro's term would have ended February 20, 1908. He was elected President of Ver ezuela in February of last year for six years, beginning February 20, 1902. He had been elected provisional President of Ven-ezuela on March 30, 1901, by the constituent

assembly

ezuela on March 30, 1901, by the constituent assembly.

Senor Castro, when the presidency changed hands some time previous to that date, had proclaimed himself President, and the United States Government in November, 1899, had officially recognized the defacto Government, headed by him. The action of the constituent assembly legalized his position, and invested him with the full powers of a presidential ruler to the limit of its authority.

Up to that time, while being generally recognized as President of Venezuela, he had in reality been simply dictator of the Republic. A year later, as already stated, the Venezuelan Congress ratified him as President of Venezuelan Congress ratified him as President of Venezuela for a term of six years, dated from February 20, 1992.

Washington, March 21.—From an authoritative quarter it is learned that this move on the part of Castro has long been contemplated.

Representations were made to him several months ago by the leaders that his resignation would have the effect of enabling the people of that country to present a solid front to the world in the matters in controversy with the several Powers.

The statement is made that the resignation is the result of a secret agreement with the leaders referred to that President Castro should temporarily relinquish his office pending the adjustment of the matters which Minister Rowen has in hand.

It is intimated that while President Castro nominally gives up his office, it is the intention to keep it within the family, by an arrangement to make Castro's brother Vice President, so that he would succeed to the presidency.

It is the belief that the present plan is to allow President Castro to remain out of office for a short time and then re-elect him at the next election,

and Delegates to the Springfield Convention Are Chosen.

At the annual meeting of Post A of the Travelers' Protective Association at the Odeon last night the names of the successful candidates at the election yesterday were announced. Frank Canter was relected president and William Appel first vice president. A board of twelve directors and delegates and alternates to the State convention were chosen.

Secretary and Treasurer J. Herbert Stafford reported \$1,300 in the treasury on March I. In the last year 489 new members were admitted. making the total membership of the local post 2,545. One hundred and thirty-seven claims, amounting to \$10.382, were paid during the year. Twenty-five applications for membership were received last night.

applications for membership were received last night.

The chairman of the Railroad Committee reported that the State Legislature had passed and the Governor had signed a bill fixing the rate to be charged for excess baggage. The first of the year the railroads attempted to raise the rates for excess baggage from 15 cents to 25 cents a hundred pounds. The Travelers Protective Association protested, and the bill just passed fixes the rate at 125 per cent of the regular fare. This is less than 15 cents a hundred.

The State Convention of the Travelers' Protective Association will take place in St. Joseph April 24 and 25. One hundred and fitty delegates are expected to attend. More than a third of that number will go from this city. Other cities to send delegates will be Kansas City. Springfield, St. Joseph, Sedalia, Joplin and Mexico.
